EDUCATION

Systems Engineer

Cesmag University | 2017- Present

Project Management Specialist

Cesmag University | 2022- Present

EXPERIENCE

Junior Programming

LiliSoft | 2023 - act

At the Pabon Clinic and CardioNeuroVascular Care Center, they are currently developing an Enterprise Resource Planning (ERP) information system called Lilisoft. This system aims to optimize processes in a unified manner, with the goal of delivering high-quality service across all specialties.

Currently, the inventory module is being developed, which includes a system for managing inventory of biomedical equipment, information systems inventory, hospital clothing inventory, and furniture and fixtures inventory.

EasyAmbulance | 2019 - 2023

Development of a georeferenced management system applied to the ambulance emergency service, aimed at providing users with the convenience of requesting said service without the need to endure extended waiting periods.
